

The Active High Growth Fund is available through the FirstChoice KiwiSaver Scheme.

### Who is this fund suitable for?

The Fund is most suited to investors:

- seeking a high return from their investment over the long-term by investing in a range of international companies
- prepared to accept significant fluctuations in returns from year to year

### Investment objective

- To provide investors with higher long-term capital growth

### Investment style

The Fund uses an active management style and invests solely in growth assets (world shares) using a multi manager, multi investment style approach. Using this investment approach means that during periods where a particular investment manager or style is out of favour another manager or style could compensate. This approach is designed with the aim of delivering more consistent returns over the longer term.

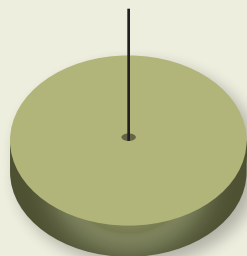

### Risk profile

High risk/return

### Asset allocation

World Shares

100%

### Market index (that fund performance is measured against)

MSCI World Index

### Underlying investment manager

#### Colonial First State Investments Limited

Assets within the Fund are managed by Colonial First State Investments Limited which is one of Australia's leading wealth management companies, with more than AUS\$154 billion\* under management globally. The Fund invests into a diversified portfolio of companies and utilizes a number of leading world share managers, which have different yet complementary investment styles.
